Making a transfer in the Sparkasse app

Payment transactions

You can control all of your payment transactions in your Sparkasse app. Here, you will learn how you can make a transfer with the pushTAN procedure.

1 Open the Sparkasse app and log in with a biometric feature or the app password.

2 By clicking on „Konten und Karten“, you open the display of your activated accounts.

3 Select the account from which you would like to make your transfer.

4 Now, click on “Geld senden” in the upper area.

5 Then, you can select „Überweisung“.

6 Enter the IBAN and the name of the recipient. Then, click on „Übernehmen“.

As an alternative, you can also scan an invoice or a QR-code via camera or use an existing form.

Making a transfer in the Sparkasse app

7 Enter the amount and the intended use and click on „Weiter“.

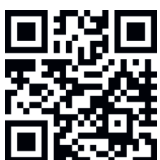

8 Select the transfer time and then click on „Überweisung prüfen“.

9 Check the summary of the transfer data. If all of the information is correct, confirm by clicking on „Weiter“.
To authorize the transaction, switch now to the S-pushTAN app.

10 Unlock the S-pushTAN app with a biometric feature (Face ID) or your password.
If the transaction is not called up automatically, swipe once from top to bottom on the screen of the app.

11 Now, check the transaction data.
If all of the data is correct, swipe the button „Auftrag freigeben“ (“Authorize transaction”) from left to right. Confirm with the biometric feature as needed.

12 Switch back to the Sparkasse app.
Here, you will receive confirmation of the transaction acceptance.
